

The Bridge and the Christmas wreaths

I turned

There it was

A Bridge

At the bottom

Of a person's driveway

Aesthetically cute

On the two posts

Two lovely wreaths

Two lovely red bows

Spoke of effort

Effort to welcome visitors

With Christmas symbols

A Christmas bridge

Christmas as a bridge

Linking the old year

It's lessons

It's joys and trials

To the New Year

Walking through Christmas

We get to that year

The old linking the new

The new arising out of the old

Nothing arises out of context

The new arises out of the old

Are we on the look out?

Are we discerning enough?

Past needed

Essential for present

As present is for future

These bridges helping us humans

Get from A to B to C

Beautiful Christmas Bridge

Pathway to home

May we live

Conscious that all pathways

Can heal us home

To God, The One

If we are open To the Divine Bridge Builder

Help us to see

The Bridge of Life

As eternally built

For an eternal cute home

Many homey cute bridges

Many fragile ones

Safety nets abound though!

God, She, He , It

Leading us home

Via bridges galore!
